

Tournigan Energy Sustainability Commitment Statement

Our Vision of Sustainable Development

At Tournigan Energy, our vision is to create value for our stakeholders by being a good corporate citizen and a model of sustainable development in the mining industry.

How We Do It

To Tournigan Energy, sustainable development is achieved through the integration of economic, environmental and social considerations in our decision making. Our decisions and actions are guided by the following tenets:

- We conduct our business with integrity, fairness and honesty, and we expect the same from our stakeholders.
- We work actively and transparently with communities and their stakeholders; respecting their laws and customs and ensuring a fair share of benefits and opportunities.
- We hold the health and safety of our stakeholders as a core value wherever we operate.
- We manage our business with fiscal responsibility to ensure strong financial performance.
- We operate in a manner that respects our natural environment.

Our Business Values

At Tournigan Energy we believe our commitment to sustainable development is simply good business practice and contributes to our social license to operate. We strive to embed sustainable development through all levels of our organization. We will allocate resources to ensure that our commitments to sustainable development are met.
